

Transfer Pricing Litigations and Controversies in Asia Pacific

Rising inflation. Government deficits. Contraction in GDP. – All are contributing factors to an era of governments exploring more grounds for a “fairer” share of global tax revenue.

In this webinar, we examine with our Asia Pacific practitioners their cases on two common Transfer Pricing controversy issues – (1) in-country distribution activities; and (2) service provision.

Our experts around the region will share with you a few case studies and their views on how to take a controversial case forward.

This month's topic is highly relevant to C-suite executives and Finance and Tax professionals with interests or responsibilities in Asia and globally.
